Subject: Request to PSC to allow discovery process for net metering

The Honorable Jocelyn Boyd,

Please note the attached request which I am also sending via the USPS. Please have the clerk put this item on the PSC's agenda for the next meeting.

Also, for your and everyone's information, Ruth Thomas's home address has changed. It is now 354 Woodland Drive, Columbus, North Carolina 28722. Please change your records and send any correspondence to her current address.

Sincerely,
Pamela Greenlaw

The Honorable Jocelyn Boyd
Chief Clerk and Administrator
Public Service Commission
101 Executive Center Drive
Columbia, South Carolina 29210

RE: Order No. 2013-589 and Petition of the Office of Regulatory Staff to Establish Dockets to consider Implementation of the Requirements of Section 1251 (Net Metering and Additional Standards) of the Energy Policy Act of 2005, Docket Number 2005-385-E

Dear Ms. Boyd,

Because the Public Service Commission's processes for revisiting net metering had not been delineated, and confusion resulted on how parties were to proceed, no one knew the approved method(s) for acquiring pertinent information from the utilities about their net metering programs. Now that the Commission has delayed the proposed workshop yet still is requiring parties to submit evaluations of the utilities' net metering programs, it is of utmost importance that the parties have sufficient data upon which to base valid, independent evaluations; therefore, I am making two timely requests.

First, I ask the Commission to allow a discovery process to begin at this time for the purpose of data-gathering about the IOU's net metering programs of the past 4 years. Furthermore, I request that the IOU's be given sufficient time to answer for their responses to discovery questions.

This would extend the time needed by the parties to complete their analysis and their evaluation process. So my second request is that the Commission reset the deadline dates and times for net metering evaluations that comport with the necessary revamped timeline for a discovery process.

Please grant these two requests/petitions, as they are very seriously needed at this very time in order for all parties to comply with the Commission's order to provide evaluations.

By copy of this letter I am serving each of the parties below via USPS and via email.

Sincerely,

Pamela Greenlaw
